## **DETAILED ACTION**

Applicant's election without traverse of invention II (claim 14) in the reply filed on 12/22/05 is acknowledged.

Applicant has canceled claims 1 – 13 and 15 – 17.

## Allowable Subject Matter

Claim 14 is allowed.

The following is an examiner's statement of reasons for allowance: As to claim 14, the prior art fails to disclose a method of compensating a temperature dependent characteristic of a magnetic sensor wherein obtaining a first temperature of the magnetoresistive element on the basis of the detection temperature output from the temperature detecting section; changing the electrically energized state of the heat generating element; obtaining a second temperature of the magnetoresistive element on the basis of the detection temperature output from the temperature detecting section; storing into the first memory a value corresponding to a ratio of a difference between the first and second output values to a difference between the first and second temperatures and storing into the second memory, as reference data, an offset value of the output value of the magnetic sensor and subsequently correcting the output value of the magnetic sensor on the basis of the value corresponding to the ratio stored in the first memory, the reference data stored in the second memory, and the detection

Art Unit: 2862

temperature output from the temperature detecting section. These features taken together with the other limitations of the claim renders the claim allowable over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **Prior Art of Record**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bauer et al. (5,351,003) is cited for its disclosure of a temperature compensated magnetoresistive position sensor.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Reena Aurora whose telephone number is 571-272-2263. The examiner can normally be reached on Monday - Friday, 7:00 - 3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, E. Lefkowitz can be reached on 571-272-2180. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
